## Criterion – V

### Student Support and Progression

#### 5.1 Contribution of IQAC in enhancing awareness about Student Support Services

- A comprehensive orientation program is organised on the very first day of the college to apprise students about rules and regulations of the Affiliating University, and Students Support Services.
- Students motivated and guided through Student Welfare Committee, Legal Literacy Cell, EWYL Cell, Red Ribbon Society, the Career Guidance and Counselling Cell, Anti-ragging Committee, Minority Cell, Grievance Redressal Cell, SC/ST Committee, Canteen Committee and Anti-corruption Cell for making students aware about their activities through notices and lectures.
- Active use of College Website, Facebook and Whatsapp for dissemination of information for Students Support Services.
- College prospectus gives detailed information about admission policy, system of reservation, fee-structure, subject/options, academic calendar, house examination, schedule of semester examination, fixed programs of various committees etc.
- Infrastructural and coaching support to sports persons given special space in all methods of communication.

#### 5.2 Efforts made by the institution for tracking the progression

- Mechanism of internal assessment with attendance as an essential component is actively used for identifying outstanding performers and students at risk of poor performance.
- Through College Website, Facebook page and Whatsapp groups, the objective is being addressed.
- Career and Guidance Cell tracks the record of students preparing for various competitions.
- The Alumni Registration Committee keeps the record of Alumni. Moreover, the Alumni link introduced in the college website has also supplemented the efforts.
- The progression is also tracked at the departmental level through personal communication of teachers with students and Alumni.

- To harmonize the needs of employability with the pluralistic ethos of the nation.

#### 6.2 Does the Institution has a management Information System: Yes

- The college has its own mechanism of management information which is fully computerised. A complete switch over to ERP (Enterprise Resource Planning) in the future will take care of various administrative activities.
- For better management and governance, the college administration ensures a system of participative management. The suggestions given by the Governing Body, the Management, IQAC and the Advisory are implemented by the various administrative offices, under the leadership and guidance of the Principal.

#### 6.3 Quality improvement strategies adopted by the institution for each of the following

##### 6.3.1 Curriculum Development

- The College adheres to the guidelines for curriculum development set down by the Affiliating University.
- Within the prescribed curriculum, flexibility is ensured by providing options as per choice of the students. Within the curriculum, medium of instruction is both English and Hindi though majority of the students opt Hindi medium.
- From time to time the faculty members play an active role in the process of curriculum development as members of the Board of Studies of the Affiliating University, in their respective subjects.
- The experience gained by faculty members as participants/resource persons at conferences, seminars/workshops and also as members of Board of Studies and member of Governing Bodies in other institutions and various committees of the Affiliating University facilitates the process of curriculum design.

---

### 6.3.2 Teaching and Learning

- In the light of the suggestions made by NAAC Peer Team the management and the college administration requested IQAC to review action plan and Academic calendar for required additions and upgradations in the relevant fields.
- The college management ensures that the qualified and committed faculty are recruited. This helps in ensuring quality in student-centric teaching-learning process.
- Targeted grooming of faculty for inclusion of latest tools of teaching-learning is fully supported.
- Faculty is provided with need based academic and study leave.
- The provision of maternity leave is strictly followed.
- Library and Learning resources are being restructured as per students' feedback.
- Along with class room teaching method, the process of adopting ICT tools, online courses gaining momentum.
- There is a growing interest among faculty and students for owning social responsibilities by addressing issues beyond the curriculum such as environmental degradation, gender sensitization and nurturing of Haryanvi Folk tradition.

### 6.3.3 Examination and Evaluation

- The college abides by the norms of Kurukshetra University, Kurukshetra with regards to semester and annual system. These include theory, practical, viva-voce and project work etc.
- The college conducts various class tests, group discussions, assignments, viva-voce, class seminars, quiz contests and presentations in addition to the regular university examinations.
- Internal evaluation is done in a transparent manner and students are given fair opportunity by addressing their concerns.
- To monitor the strengths and weaknesses of students in their syllabi based activities, the faculty remains constantly in touch and provide proper guidance and feedback on one to one basis in addition to the routine classroom sessions.

### 6.3.4 Research and Development

- The research endeavours of the faculty are fully supported as per UGC and Haryana Govt. norms at different platforms of consultations and decision making on innovations in research orientation of UG and PG students is duly initiated.
- Faculty members are actively engaged in research work in their respective areas and regularly publish their research papers in international and national journals of repute. Around 80% of our faculty members are actively engaged in different areas of research.
- The College also has a vibrant, rapidly expanding postgraduate /UG student research culture. Faculty members are encouraged to avail opportunities for research grants, projects and fellowships offered by UGC minor and major research proposals, and also participate and present papers in workshops, seminars and conferences regularly, both in India and abroad.
- To strengthen the resources and environment for research, the library has subscribed to INFLIBNET for e-resources.

---

### 6.3.5 Library, ICT and physical infrastructure / instrumentations

*Library:* The College has a well-maintained and rich library catering to the needs and interests of students and faculty. The library is fully computerized. Ample e-resources are available in the library. In order to track the overtime-missing books, replacements, withdrawals an inventory is maintained in the library. Reprography and internet facilities are provided to users. The modern infrastructure and diversity of its resources carry an imprint of the decades old tradition of constant support extended by the alumni. New books and periodicals are added regularly. To further strengthen the library system, library committee plays an active role.

*ICT:* The College adopts policies and strategies for adequate technology deployment and maintenance. The college is updating ICT facilities and other infrastructural facilities to facilitate effective teaching and learning process. The staff and students have access to technology and information on current and relevant issues. Computers with internet facilities have been provided to teaching departments to include computer aided teaching. The College has setup eight Smart boards and number of LCD projectors in seminar halls and selected labs which also serve as Smart class rooms. Students are assigned projects that require the use of ICT tools. A popular mode of presentations in practice is power point presentations (PPTs).

*Physical Infrastructure:* An Indoor Stadium, 3 Seminars Halls, a Conference Hall, well-lighted and ventilated classrooms, well-equipped labs (few with SMART boards), separate Diamond Jubilee Block for post-graduate departments (with separate departmental offices), separate common rooms for boys and girls, library, guest room, a dispensary, ample parking areas, departmental offices, lush green lawns etc. are provided. Keeping in mind the increasing number of students an extension building is being proposed with classrooms and labs.

In order to ensure safety and security of the campus community, the College is under central surveillance with the installation of CCTVs at several locations on campus. Fire extinguishers have been installed on campus, and students and staff have been trained in handling the equipment.

Based on the requirements, budget is prepared with due provision for equipment, furniture, labs and classrooms. The institution has allocated sufficient resources for regular maintenance and upkeep of infrastructure, basic amenities and equipment. The quality of drinking water for students is ensured through adequate number of water purifiers, filter and water coolers. An effective monitoring system through various committees ensures the maintenance and upkeep of infrastructure, facilities and equipment of the college. The college administration ensures timely additions and proper maintenance of the overall infrastructure with a student-centric and eco-friendly vision.

### 6.3.6 Human Resource Management

The college management ensures a supportive environment and the quality of human resources is constantly improved and upgraded. To recognize the deep-rooted tradition of belongingness, the institution has continued with a unique practice of honouring the employees on completing twenty-five years of service. Moreover, ample opportunities are provided for the professional progress of teaching and non-teaching staff.

### 6.3.7 Faculty and Staff recruitment

Recruitments to the teaching and non-teaching staff are done strictly as per guidelines of the UGC, Affiliating University and state government. The vacancies are filled by the governing body as per norms through its own resources. At the onset of each academic year, the Governing Body reviews the existing positions and identifies personnels for various teaching and non-teaching positions. The management makes appointments through prescribed procedures. Walk-in interviews are conducted for the recruitment of staff against non-sanctioned posts. Applicants are interviewed by a selection panel consisting of the Principal, members of the Governing Body and Head of the concerned department/a senior member of the faculty.

### 6.3.8 Industry Interaction / Collaboration

To develop entrepreneurial outlook among students, visits to local industries and manufacturing units continued as a regular feature. On-the-job training programmes were organized for vocational courses (B.B.A., B.C.A. and P.G.D.C.A. etc.). Department of Botany, Commerce, Economics, Electronics, Computer Science, Chemistry, Physics and Zoology organized industrial visits for the students at various places. Various departments carry forward the linkages and collaborations with industry, scientific, educational and cultural organizations/institutions to provide the students required exposure and career opportunities.

### 6.3.9 Admission of Students

Online admission process managed by Director General of Higher Education, Govt. of Haryana, is followed. As the most preferred destination in the region, applications received for admissions to various courses are usually many times the number of seats allotted. The admission process is strictly based on the criteria of merit and reservation policy as per the norms of the State Government and Kurukshetra University, Kurukshetra.

### **Best Practice of the Year-1**

- **Title of the practice**

Campaign For Environmental Awareness

- **The context that required the initiation of the practice**

Due to the increasing environmental degradation at the regional, national and global level and a continuance observance on adverse impact on the living conditions in rural and urban Haryana, a need was felt to address the overall issue in a manner that the students, faculty and community at large is made aware on the diverse aspects of environmental balance through a wide range of approaches and activities already available or to be visualized and evolved as per segments to be addressed and engaged.

- **Objectives of the practice**

- To launch a sustained campaign in a phased manner
- To make deep and wide impact from college campus to grass-root level

- **The practice**

The college decided to start the campaign with participation of Eco-Club, NSS and NCC students. This initiative gradually involved different cells, societies and committees. At the initial stage, plantation, cleanliness and general awareness drive on environmental issues were taken up. For popularizing the campaign, social networking sites, college website, Facebook page of the institution, WhatsApp and Alumni link were actively used. A large number of student-volunteers came forward to participate and carry forward the campaign to the nearby localities and rural areas. The college administration also reached out to a number of govt. and non-govt. organizations for support and participation. The college became a centre of debates, discussions, exhibitions and other related activities on environment and risk management.

- **Obstacles faced if any and strategies adopted to overcome**

The popular mode of addressing the issue in a rhetorical and ceremonial manner was a major problem and special efforts were required to make the campaign really effective. Debates, discussions and poster exhibitions providing clarity helped in raising level of awareness and qualitative shifts in modes of participation.

Given the wide range of developmental, cultural and political issues and standpoints involved in prevalent discourse on Environment and Climate change, it was particularly difficult to immediately arrive at a set of activities relevant to different target groups and areas for sustained drives. Regular participation of faculty, consultation and collaboration with govt. and non-govt. agencies/ organizations and grassroot level experience helped in sustaining focus on key environmental issues.

### • **Impact of the Practice**

The campaign was thoroughly successful in making deep impact from micro to the macro level. Beginning at the institutional level, it finally reached a number of nearby villages. Students under Swacchata Abhiyaan took summer training in community service and became volunteers as well as leaders of the campaign. As done at the college level, they actively used social networking sites like Facebook and WhatsApp. This practice was particularly successful building a tempo of awareness that resulted in ground level activism addressing a wide range of local and global issues including stubble burning, groundwater level, diversification of crops, organic farming, forms and management of pollution, transport habits, climate change, diversity of species, flora and fauna etc. with a genuine community perspective. The recurrence of natural calamities and resultant urgency of risk management remained the vantage point of all activities and discourse emanating from the practice. Finally, it was felt that this practice carries a scope and social responsibility for the generations to come and the existence of planet Earth itself.

### **Resources Required**

Initially, the college provided required finances and logistics. But it expanded with broader support from society, govt. and several NGOs identifying their objectives with the campaign. Volunteerism of participants and organizers is self-assuring in terms of resources required.

### **Further Details:**

- A DGHE sponsored One Day National Seminar was organized on 16th March, 2018 on the topic “Environment & Natural Resources: Human Necessity and Challenges”. In all 450 students, research scholars, teachers from various Institutes of Haryana, Punjab, Himachal Pradesh, Uttar Pradesh, New Delhi, Telangana, Tamilnadu, participated in the Seminar. The Keynote speakers were Dr. R. K. Sharma, Dean of Colleges and Chairman, Department of Zoology, Kurukshetra University, Kurukshetra, Prof. (Dr.) S. S. Hundal, Punjab Agriculture University, Ludhiana, Dr. Jitender Sharma, Dept of Zoology, Kurukshetra University, Kurukshetra and about 225 research papers were presented.
- In collaboration with Haryana Forest Development Corporation & Haryana State Pollution Control Board, a state level seminar was organized on “Environment Education camp & Drawing Competition” on 21st March 2018.
- Dr. Suruchi Sharma and Jaibir Dhariwal, Dept. of English participated and presented research papers in a Multi-disciplinary National Seminar on Swacch Bharat Abhiyaan, sponsored by DGHE, Haryana, organized by Govt. College, Chhachhrauli (Yamuna Nagar) on 30<sup>th</sup> March 2018.
- On 29<sup>th</sup> August, 2017 the students of Economics department were told about the importance of cleanliness in life. A cleanliness drive was also launched by the faculty with the help of students in the college campus.

- 
- On 8<sup>th</sup> September, 2017, the students of Economics Association donated plants with plant pots to the department for the cause of environmental awareness.
  - Various committees like Campus Beautification and Floriculture Committee, Waste Disposal Committee, Eco-club and NSS & NCC units protect, conserve and monitor the environment.
  - A year-long cleanliness drive beginning from the college Campus & outside initiated by NSS under “Swacch Bharat Abhiyaan”.
  - A 100-day long drive of cleanliness in Deora Village under Swacch Bharat Summer Internship.
  - A cleanliness Drive was launched by NSS Volunteers under “Swacch Bharat Abhiyaan” on 12<sup>th</sup> August 2017. An Extension Lecture was also delivered by Dr. Rishipal Bedi on this occasion.
  - Distribution of Plants by Prof. Chetna Sharma under “Voice of Nature” Programme organized by NSS on 20<sup>th</sup> August, 2017.
  - The college has been maintaining a clean and green campus with aesthetically selected plants and carefully groomed lawns. A plantation drive in coordination with Forest Department was undertaken to increase the green cover.
  - Dustbins have been placed at various locations in large number.
  - Use of polythene bags is banned.
  - Prescribed procedure is followed for the disposal of hazardous chemical waste.
  - CFL/ LED lamps have replaced incandescent lamps in the campus to save electricity.
  - Special care is taken to switch off electrical appliances and equipment when not in use.
  - A waste disposal committee works to ensure the proper disposal of waste generated in the college.
  - The artificial recharge structure installed in the playground of the college was properly maintained.
  - To promote the use of clean energy, gradual shift to solar power has been planned. A 120 KW Solar Power Plant is being proposed to be installed in the campus. This will reduce 90% dependency on electricity purchased from the Govt.
  - Debate, Declamation, Collage, Poster-Making Competition were organised on the theme of Environment protection.

## Best Practice II

### Title of the Practice

Qualitative Transformation of Academic Space within the Institution

- **The context that required the initiation of practice**

The academic ambience of an institution depends upon several factors. But it is the teaching-learning process that serves as the foundation for the germination and diversification of curriculum based or extra-curricular directions and activities. During this academic session, the college was inspected by NAAC Peer Team and accredited with grade -A. In continuation with the internal churning on teaching-learning process, the common thread running through the overall observations and suggestions made in the report of the peer team was also for due cognizance and assimilation of new methods and technologies in this particular aspect. While interacting with management, faculty, non-teaching staff, IQAC and various departments, the peer team emphasized that the institution has the potential and resources to redefine the teaching-learning process and overall academic environment as per latest paradigms and technology in all streams. This necessitated a review of the Action Plan and academic calendar of the session.

- **Objectives of the Practice**

- To re-invent classroom teaching-learning process
- To plan experimentation at the departmental level.
- To enhance participation of students in the teaching-learning process through innovative activities.
- To percolate research orientation and expertise of faculty through reforms in internal examination and evaluation

- **The practice**

Without the excitement of participation in the classroom and motivation for self-learning through various methods, students are prone to become indifferent to the teaching learning process in the class room. While consolidating classroom teaching methods, sustained efforts were made to overcome the tendency and limitation of the students as passive listeners in the classroom. Instead of ongoing incremental change, systematic and all round measures were planned and taken across the streams from UG to PG. Faculty were provided with required exposure and orientation on ICT tools and IQAC coordinated institution level workshops as per emerging paradigms of quality assurance in teaching-learning process. At the classroom level, activities based on the curriculum were planned and widely experimented with. Different departments conducted Quiz contests, Poster Making and Poster exhibitions, Presentations, Declamations, Group discussions and Essay Writing competitions etc. to involve students actively. Power point presentations using smart board were made a regular feature in B.Sc. final year labs. The task of preparing presentations with due space for needful explanations was assigned to the students in groups of two-three with other students and the faculty as audience. In this way the students got the

---

opportunity to have a thorough discussion on all the experiments prescribed in the syllabus both as presenter and audience.

The post-graduate departments developed poster-making and poster-exhibition as effective tools of learning with active participation of students. In groups of threes/fours, students were given the task of preparing posters on specific text in the syllabus and elaborate the depiction invoking a useful discussion on the topic in the process. Similarly, students of other courses were also engaged in activities like group discussion, declamation, quiz etc. for rejuvenating the teaching-learning process. The dept. of Commerce, Economics, Zoology and Botany transformed project work and assignment to make them survey based and research-centric. Particularly, students of Commerce attended three-week industry training and submitted well documented projects for evaluation and defended through presentation and viva. At UG level, dept. of English, Hindi, Sanskrit, Punjabi, Political Science and History selectively clubbed presentations on a part of assignments in the class room settings. Departments of Mathematics, Physics, Computer Science and Chemistry held dept. specific and interdepartmental activities planned and organized by students through subject societies. In addition to the above activities faculty and students participated and presented their innovative projects and research at state, national and international level exhibitions, seminars and conferences within and outside India. A One-day drive among Postgraduate students on anti-plagiarism awareness was launched. Further details are there in Annexures of Departmental Activities and Achievements of Faculty.

- **Obstacles faced if any and strategies adopted to overcome**

Obsession with exams-centric teaching-learning process and continuous pressure of university exams and completion of syllabi due to semester system was a major hurdle in experimentation. By encouraging faculty to adopt and assimilate latest ICT tools helped a lot. Focus on curriculum with regular efforts to make linkages with the aspects beyond given horizons of curriculum through opportunities availed by assignments/project works and PPT or classroom group discussions, participation of students carried the endeavour to a sustainable success for the coming academic sessions.

- **Impact of the Practice**

A genuine and qualitative shift in teaching-learning process is rejuvenating teacher-taught relationship and overall academic space of the institution. The college library witnessed extraordinary use of INFLIBNET, books and reading Hall. The Library Committee started a process of getting suggestions and feedback from students for incorporating the needful changes. Faculty and students placed special request before the management to further upgrade the facilities available in the library. Another dividend of the practice was a growing interest among faculty for getting engaged in personal and group consultation of students on issues and problems within or outside curriculum.

- **Resources Required**

The college management and administration supported this experimentation in teaching-learning with additional smart classrooms, upgradation of seminar rooms and readiness to send faculty for orientation/training/ workshops/ refresher courses on latest ICT tools and processes.
