Health is a state of complete physical, mental and social well-being and not merely the absence of disease or infirmity. - WHO, 2020

The secret of health for both mind and body is not to mourn for the past, worry about the future, or anticipate troubles, but to live in the present moment wisely & earnestly. ~ Anon

The Sanskrit word for health is Svastha. Sva means (self) and Stha is (situated, located, grounded or anchored). Therefore, when we are Svastha we are anchored and connected to our healthy happy self.

"Health is the greatest possession. Contentment is the greatest treasure. Non-being is the greatest joy." ~ Lao Tzu

Topic: "Critique of Idea & Concept of Justice in Indian & Western Tradition" (भारतीय एवम् पाश्चात्य परम्परा में न्याय के विचार एवम् अवधारणा की मीमांसा)

Department of Sanskrit and Political Science of RKSD College, Kaithal, Sanatan Dharma Human Development, Research & Training Center (SDHDR&T), S D College Ambala Cantt, GMN College, SD Adarsh Sanskrit College, Ambala and MPN College, Mullana jointly organized a National Webinar on the topic- "Critique of Idea & Concept of Justice in Indian & Western Tradition" (भारतीय एवम् पाश्चात्य परम्परा में न्याय के विचार एवम् अवधारणा की मीमांसा) on 4 December 2021, in which 39 scholars, teachers & students participated. Dr. Chiman Lal, HOD, Pol. Sc. welcomed the **resource person Dr. Ashutosh Dayal Mathur (Ph. No- 9971330167), Head, Department of Sanskrit, St. Stephen College, Delhi University, Delhi** who talked about the various aspects of western tradition of justice along with the idea of Nyaaya as Dharma in Sanskrit Dharma-Shastra tradition. He referred to different sources of dharma-shastras regarding the various aspects of justice including issues of social justice. Department of Sanskrit initiated the discussion by raising various issues by PPT presentation like What justice is? What constitutes justice? What is the difference among Greek, Roman, Biblical, Islamic, Indian constitutional ideas & concepts of justice along with Sanskrit Shastrik concept of justice? NEETI & NYAAYA both stand for justice in classical Sanskrit, but both have been used in many different senses in different philosophical and legal discussions in ancient India. Among the principal uses of the term NITI are organizational propriety and behavioural correctness whereas the term Nyaaya stands for a more comprehensive concept of realized justice. Moreover, Dharma is a more appropriate concept rather than justice or Nyaaya. Department of Sanskrit shared four short stories to easily understand the concept of Justice from Greek, Western, Jew & Sanskrit tradition. Dr. Vinay Singhal, proposed the vote of thanks to all the participants and resource person for their valuable contributions.

(Under Veda Vyaas Restructuring Sanskrit Scheme)

Topic: "Critique of Sanskrit Shaastraiya Model of Indian Human Rights" (संस्कृत- शास्त्रीय भारतीय मानवाधिकार के प्रारूप की मीमांसा)

Departments of Sanskrit of RKSD College, Kaithal, GMN College, Ambala, MPN College, Mullana, SDA Sanskrit College, Ambala and Sanatan Dharma Human Development, Research & Training Center (SDHDR&T), S D College, jointly organized a National Webinar cum Open House Discussion on the topic "Critique of Sanskrit Shaastraiya Model of Indian Human Rights" (संस्कृत- शास्त्रीय भारतीय मानवाधिकार के प्रारूप की मीमांसा) on 10 December 2021 in which 47 teachers, scholars & students participate and discussed about the human rights which emerged out of two bloody world wars which were forced upon the humanity by the west, as face saver. How with competitive market economy can UNO develop culture of human rights and moreover why Indian social scientists are still unable to develop their own idea and practices of human rights? Multiple issues were raised and discussed and at the outset, Department of Sanskrit proposed the model of human rights based on Sanskrit shastras for critical evaluation of scholars by a PPT presentation?

Dr. Avinash K Shrivastava (Ph. No- 9334134122), Head Department of Buddhist Studies, Nalanda University, Bihar was the resource person. Dr. Neeraj, Dr. Vishal Bhardwaj, Dr. Rekha Aggarwal, Dr. Rajendra, Dr. Chanchal Sharma, Dr Yoga Shree Nath, Dr. Sushma Mehta, Dr Anand Gurhye, Dr Jaiprakash, Dr. Jyoti Sharma, Dr Roopika Bhanot, Dr Loveleen, Dr Meenakshi and others shared their Indian perspective of human rights & practices. Dr. C. K. Jha welcomed the speakers & participants and briefed about the idea of human rights. In the concluding session, Dr. Vinay Singhal proposed the vote of thanks.

The discussion concluded as follows- The history of the West makes it abundantly evident that all revolutions have only resulted in the transfer of power from the royal family to the capitalist class. Neither justice nor equality was the goal of these revolutions. Therefore, no matter how much reasoning and publicity is put into human rights, its fundamental tenets will still be distorted. No matter how strongly capitalism or socialism advocates about human rights, if their respective materialism rejects the power of man, then the success of human rights will be in doubt. As a result, as Indians, we should endeavour to address all human rights issues using our cultural ability and intelligence instead of the leadership of modernism and their subject matter experts. What kind of human rights policy is wanted, how to develop equality and a healthy society based on justice in the context of human rights?

Topic: "Sanskrit Shaastriya Critique of Economy, Economics & Economist" (२१वीं शताब्दी में अर्थव्यवस्था, अर्थशास्त्र एवम् अर्थशास्त्री की संस्कृत शास्त्रीय मीमांसा)

Departments of Sanskrit & SDHDR&T Centre, S. D. College, GMN College, Arya Girls College, Ambala Cantt RKSD College, Kaithal and MPN College, Mullana jointly organized an online national webinar cum open house discussion on the topic- "Sanskrit Shaastriya Critique of Economy, Economics & Economist" (२१वीं शताब्दी में अर्थव्यवस्था, अर्थशास्त्र एवम् अर्थशास्त्री की संस्कृत शास्त्रीय मीमांसा) on 21 January 2022, which was attended by 76 participants from different states. **Prof. Dr. Sudhir Kumar (Ph. No- 8054368260), Department of English, Punjab University, Chandigarh was the resource person.** Department of Sanskrit raised three main issues (Can Modern Economic View satisfy a person towards future? Can Modern Economic View encourage rich people to share their money with needy persons? Can Modern Economic View provide justice to poor people) through PPT presentation & talked about the concept of "Sensible Economics" based on Sanskrit Shaastras as GDP based economic model designed and developed for 7.5 billion people of one living earth has been able to generate facilities & conveniences for people in unequal & unjust manner because of which wellbeing is not happening so it's high time to rethink about our traditional wisdom regarding economics of wellbeing. The patch works like sustainable economics, green economics, and environmental economics are no sureties or securities for a safe, healthy human future on this one living planet called earth. It is because of these reasons we need to look for an alternative economic thinking in terms of sensible economics and evaluate the Karma & Dharma of economists based on Sanskrit Shaastras. The result of intellect-based economics is like- अन्धेनेव नीयमानः यथान्धः।

So, it's high time that we explore intelligence-based economics rather than intellectual economics. Prof. Dr. Sudhir Kumar, Department of English, Punjab University, Chandigarh & Coordinator of National Winter School of "ArthaaYaama" at IIAS, Shimla gave a brilliant account of ArthaaYaama as how to decolonize the minds of the upcoming generation of young teachers and researchers and remind them of the holistic dharmic nature of all Indic knowledge systems. It aimed at reading the economic aspect of life not only economically but through the integral vision of Sanatan Dharmi Indic knowledge system so well envisioned as "Arthaayaama" (a concept used by Pandit Deen Dayal Upadhyaya). Dr Avinash K Shrivastava talked about issues from Buddhists perspective and emphasised on "Samayaka Economics". Prof Dr. Manish Sharma introduced the idea of Gandhian economics which is very relevant in 21st century and Dr R K Gupta elaborated the "Loka Samgrah Based Economics" as described in Bhagvad Geeta. It was followed by question answer session in which different issues were raised by the Participants. Sh Ajay Bhardwaj, Senior journalist from Chandigarh, in his presidential remarks talked about the urgent need to change the discourse of mainstream capitalist cum communist economy by ideas of Purushartha of Indian tradition and emphasized that all economists need to think and see economic issues from agrarian economic perspective and remodel the whole economic structure. Dr. Rajendra, Dr. C. K. Jha, Dr. Vinay Singhal, Dr. Loveleen Grover, Dr. Chanchal Sharma, Dr. Manmohan Sharma, Sh. Narender, Dr. Anand Gurhye, Sh. Anil Mittal & others shared their views in the discussion session.

Topic: "Physics of Panch MahaaBhoot" (पंचमहाभूतों की भौतिकी/भौतिकशास्त्र)

Departments of Sanskrit, Physics, Chemistry, Botany, Zoology of S.D. College, GMN College, Arya Girls College, Ambala Cantt, BAR Janta College, Kaul, MPN College, Mullana & RKSD College, Kaithal jointly organized a national webinar on the occasion of 'Shashti Poorthi & Sewa Nivriti' of "Dr. Sunil Sharma, Head & Associate Professor, PG Department of Physics" on the following topic- "Physics of Panch MahaaBhoot", (पंचमहाभूतों की भौतिकी/भौतिकशास्त्र) in which 47 participants took part from various states & institutions. This webinar was an attempt to open up a dialogue between Sanskrit shastriya & Physics understanding about the nature of matter, energy, time, space etc. Vedantic & Quantum theories reveal a basic oneness of the universe. They show that we cannot decompose the world into independently existing smallest units. As we penetrate into matter, nature does not show us any isolated "building blocks," but rather appears as a complicated web of relations between the various parts of the whole. These relations always include the observer in an essential way. The human observer constitutes the final link in the chain of observational processes, and the properties of any atomic object can be understood only in terms of the object's interaction with the observer. It is in this context we need to know about Physicists' understanding & response about the five Mahaa-Bhoot (basic elements)— Earth, Air, water, Fire & Aakash as we all are just 72% water, 12% earth, 6% air, 4% fire & the rest is Akasha. We have to find out the relationship between— that which has been given to us like nature including earth, air, water etc. and the symbols (Prateeka) we use to understand them. As Fritjof Capra rightly says in his book "Tao of Physics"— "The mystic and the physicist arrive at the same conclusion; one starting from the inner realm, the other from the outer world. The harmony between their views confirms the ancient Indian wisdom that Brahman, the ultimate reality without, is identical to Aatman, the reality within."

Prof (Dr.) Dheeraj Kumar Chaturvedi (Ph. No- 9896014243), Former Head, Department of Physics, Kurukshetra University Kurukshetra was the Resource person. He propounded the Indian perspective of science along with its history and then brilliantly propounded the various aspects of matter and Panch Mahabhootas and their atomic structures from Shastric tradition and western science. He talked about three laws of motion and their origin in Vaisheshik philosophy too. Department of Sanskrit introduced Dr. Sunil Sharma and duly acknowledged his contributions to the academic circle. Then different issues of Mahabhootas were raised from various perspectives including Parinamvad etc. Prof (Dr.) Lalit Kumar Gaur, Department of Sanskrit, KUK, Prof (Dr) Avinash Shrivastav, Nalanda University, Dr. R K Gupta, Dr. Vinay Singhal, Dr. Rajendra, Dr. Chanchal Sharma, Dr. Anita, Dr. Vishal Bhardwaj, GNDU, Amritsar, Dr. Roopika Bhanot and others shared their views. Later on, Dr. Vishambhar Das, Head, Department of Sanskrit, BAR Janta College, Kaul proposed the vote of thanks.

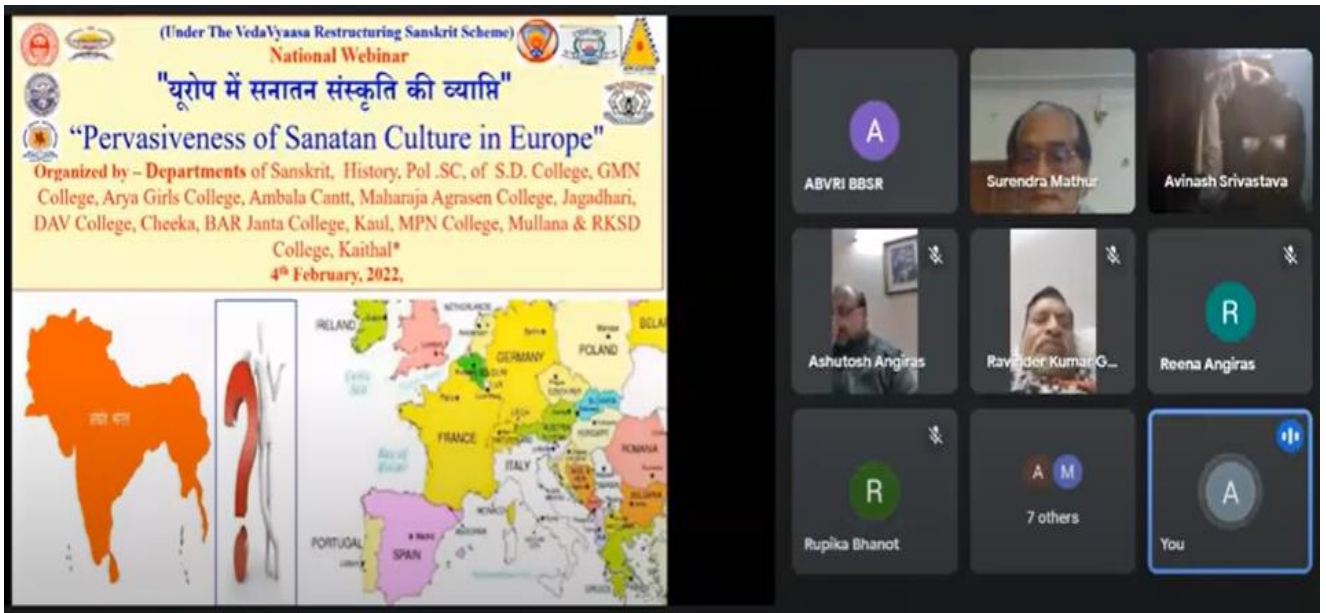

Due to some technical issues, proceedings of this National Webinar could not be recorded.

Topic: "Pervasiveness of Sanatan Culture in Europe" (यूरोप में सनातन संस्कृति की व्याप्ति)

Departments of Sanskrit, History, Pol Sc & Music of S.D. College, GMN College, Arya Girls College, Ambala Cantt, Maharaja Agrasen College, Jagadhari, DAV College, Cheeka, BAR Janta College, Kaul, MPN College, Mullana & RKSD College, Kaithal jointly organized a national webinar on the topic- "Pervasiveness of Sanatan Culture in Europe" (यूरोप में सनातन संस्कृति की व्याप्ति), in which 78 participants took part from various institutions & states. All over Europe there are multiple ancient minority religious sects, who were persecuted by Church and other forces over a long period time western history. These religious minorities have roots in Indian tradition like- Deities, worship patterns, rituals, tradition etc. It is high time we make ourselves aware about their religion, culture & tradition etc and enhance our perception, understanding about the whole issue of suppressed religious minorities by Church & states in Europe. **Major Surendra Narayan Mathur (Ph.No- 7742635223), SM (Ex) & Associate Professor, Military Engineering College, Pune & presently Vishwa Vibhag Pramukh, Vanvaasi Kalyan Ashram was the resource person who had widely travelled all over Europe in last 20 years and interacted with these religious heads. He talked about his authentic first-hand knowledge with facts on the cultural, religious, ritualistic, linguistic similarities between multiple pre-Christian religions of Europe & ancient India. He opened up a new vista for teachers, students & research scholars of history, anthropology, sociology, archaeology, Sanskrit & others to study & research. Its high time that social sciences de-condition their colonial structure and start restructuring their respective subjects. After the presentation an open house discussion followed in which various scholars raised questions, queries & suggestions. Webinar concluded with a vote of thanks.**

Prof. Dr. D. K. CHATURVEDI (Ph. No- 9896014243), Former Professor & Chairman, Department of Physics cum Director, USIC & Instrumentation Engineering, Kurukshetra University, Kurukshetra was the Resource Person and Prof. Virender Chauhan, Vice President cum Director, Haryana Granth Academy, Panchkula presided over the function. Department of Sanskrit initiated the discussion by explaining the purpose- that was to bring out the authentic scientific knowledge of ancient India, which was never given its due credit & acknowledgement by overly conditioned & prejudiced minds. Scientific discoveries made by ancient Indians were deliberately kept away from modern science. So, it is high time to reclaim our scientific glory and revive the scientific knowledge tradition. In this seminar, Dr D K Chaturvedi's book 'Science in Ancient India' was released by Prof Virender Kumar Chauhan along with Dr Rajinder Singh. Vote of thanks was proposed by Dr Roshan Lal, Head Department of Physics.

Department of Sanskrit after paying tributes to Sant Kabir, introduced the topic by raising the issues of his philosophy & literature. It was also noted with concern that SANT KABIR & his philosophy has been used as a weapon to attack Indian ethos or Hindu way of life by secularists, communists, pseudo intellectuals & Ganga-Jamuna supporters to pursue their agenda whereas Kabir was Brahma-Gyani SANT who upheld the spirit of Hindu ethos and genuinely accepted by Hindus alone. There are various aspects of his personality, thought, vision & expression which were deliberated upon by the **resource Person– Prof. (Dr.) Ramakant Angiras (Ph. No- 9464558667), Former Professor of Kalidas Chair & Head, Department of Sanskrit, Punjab University, Chandigarh.** Later on, a question answer session was held in which Dr. Praveen Choubey, Dr. Uday Kulkarni, Dr. Renuka, Dr. Anita Chhabra etc. shared their views. Department of Sanskrit opened the discussion by raising the issues in the following manner - It's interesting to know that Devtaas (Deities, not be confused with God kind of concepts) have Brihaspati as a Guru and Asuraas (not to be confused with devil type of Abrahamic terms) have Shukracharya as a guru so the question is- who is the Guru of human beings? What is the form & essence of Guru? What does guru do? Is guru matter of faith, belief or trust only? What Veda Vyaasa means- is he the first knowledge management guru? So, to decode this guru element, **Resource Person– Prof. (Dr.) Ramakant Angiras (Ph. No- 9464558667), Former Professor of Kalidas Chair & Head, Department of Sanskrit, Punjab University, Chandigarh** gave a scholarly & meaningful talk and answered all the queries & issues. This was followed by a question answer session. Vote of thanks was proposed by the convener Dr. Jyoti Sharma, Head Department of Sanskrit, Arya Girls College, Shahabad.

No.- 9416480742), Former Head & Associate Professor, Department of Pol Sc, RKSD College, Kaithal** was the resource person, Dr. Vishnu Dutt, Principal, SDA Sanskrit College, Ambala Cantt was the guest of honour and Dr. Anupama Arya, Principal, Arya Girls college, Ambala Cantt presided over. Department of Sanskrit initiated the discussion by raising the issue what does "India that is Bharat" mean constitutionally, and for revolutionaries or common people who belong to the culture and tradition which exists between Himalaya & Hind Mahasagar? Why to keep these two terms or names? What purpose does it serve and how mindset & behaviour of people has been influenced by both these terms putting together in constitution? It is said that the nomenclature matters so the term 'India' represents British colony, used for business & market purpose based on exploitation & loot. The term 'India' is white man's burden... isn't it so? Whereas the term 'Bharat' means the people who are deeply involved in Prakash (knowledge) and along with it many meaningful stories are attached to it which give a sense of belongingness to all those who live in the land between the Himalayas & Hind Mahasagar. So, one needs to know what was weighing on the mind of constituent assembly members, what questions, answers were taken up & what discussion followed & on what grounds decision was taken to have two names for our country and how?... We need to decode this - 'Bharat is Maata' and 'India is Mandi (market)' so that the confusion and the conflict in the character & behaviour of people of this land and culture can be removed and transparency & sense of belongingness evolves in 1.25 billion people. We all need to decode how to bridge the gap in Bharat Mata and India as Mandi? This discussion will help the constitution to establish its cultural roots too. There are other issues related to impact evaluation, vision etc related to these two constitutional terms which were taken up during the discussion session in which Sh. Jung Bahadur, Dr. Anita, Dr. Renuka, Dr. C K Jha, Dr. Vinay Singhal, Dr. Nitin, Dr. Ashok. Dr. Chanchal Sharma, Dr. Roopika Bhanot, Dr. Ritu Talwar, Dr. Aruna etc. shared their views and raised meaningful question answers. Webinar concluded by the vote of thanks proposed by convener Dr. Shri Om, Head, Department of Pol Sc, RKSD College, Kaithal.

Dilip Pandurang Kelkar (Ph. No- 9892939108), Bhartiya Shikshan Manch, Thane, Maharashtra was the resource person.** He elaborated the topic from various perspectives and established Dharma as Bhartiya Pratiman in a critical manner by comparing it with constitution and western paradigms, He emphasised that we all must make an effort to make India Bharat again. Department of Sanskrit talked about the two reasons to hold this webinar- 1. As Bhartiya, we all wish to live like the characters of Ramayana but as Indians we behave as characters of Mahabharata, 2. We have one set of constitutional paradigms on one hand, taken from the West only for India and on the other hand we have a set of agrarian paradigms for Bharat. These two sets of contradictory paradigms - one stands for industry cum business culture of smart people of India only and other stands for agrarian culture for sensible people of Bharat- so this dualistic situation has led not only to confusing behaviour but also contradictory behaviour too, like we see and observe in parliament, corporates, mega cities, breaking families etc. So that we feel that a discussion is needed to understand these paradigms to make conscious choices rather than the enforced compulsive choices. In the open house discussion, Dr. Avinash K Shrivastava, Dr. R K Gupta, Dr. Narender, Sh. Ajay Bhardwaj, Dr. C K Jha, Dr. Jung Bahadur, Sh. B D Thapar, Dr. Roopika Sharma, Ms Meenakshi, Ms Shikha, Dr. Vinay Singhal, Dr. Vishnu Dutt etc. shared their critical views on the issue. Webinar concluded by the vote of thanks proposed by Dr. Vishnu Dutt, Principal, S D A Sanskrit College, Ambala Cantt.

The slide features the title "वैदिक गणित की ज्ञान प्रतिनिधित्व पद्धतियों की मीमांसा" (Critique of Knowledge Representative Techniques of Vedic Maths) dated 17 September, 2022. It lists organizers from various institutions. A central image shows a sage writing on palm leaves. Text on the slide includes "शून्य SHOONYA", "WHAT IS VEDIC MATHS", "अनन्तता INFINITY", and "It is an ancient technique, which simplifies multiplication, divisibility, complex numbers, squaring, cubing, square and cube roots. Even recurring decimals and auxiliary fractions can be handled by Vedic Mathematics." The Zoom grid shows participants: sanjay sharma, Meenakshi Sharma, Avani Chaturvedi, Ram Deo, and 9 others.

The slide features the title "वैदिक गणित, जगद्गुरु स्वामी भारती कृष्ण तीर्थ द्वारा सन १९६५ में विरचित एक पुस्तक है जिसमें अंकगणितीय गणना की वैकल्पिक एवं संक्षिप्त विधियाँ दी गयी हैं। इसमें १६ मूल सूत्र तथा 13 उपसूत्र दिये गये हैं। वैदिक गणित गणना की ऐसी पद्धति है, जिससे जटिल अंकगणितीय गणनाएं अत्यंत ही सरल, सहज व त्वरित संभव हैं।" Below the text is a diagram of a sage surrounded by mathematical formulas like $(a+b)^2 = a^2 + 2ab + b^2$, $\pi = 3.14159$, and $\sin^2 + \cos^2 = \tan^2$. The Zoom grid shows participants: sanjay sharma, Ashutosh Angiras, Meenakshi Sharma, Dr. Naveen Gulati, Ram Deo, and Hem Bhardwaj has raised a hand.

No- 8279603521), BDS, MDS, Faculty at College of Dental Sciences, Indore, ATTC (900HR), Yoga Therapist, TYI Mumbai, Yoga Central Board, AYUSH Ministry Teacher & Evaluator, Sadhika at TYI, Delhi, Director & Founder, SVARG Foundation, Delhi** delivered a brilliant scholarly lecture and covered many aspects of stress management from both Indian & western perspectives. She proposed five-point charters from the Indian tradition along with medical sciences. Department of Sanskrit initiated the discussion by raising the following points- It’s high time to readdress the issues, concept & practices related to stress management in our times because in Indian Knowledge cum purusharth tradition, one manages things that are good, pleasant or precious to oneself so why anybody will manage stress, which is a negative term and concept? Sanskrit tradition asks why stress at all- is it because one is a bad manager or has no control over himself/herself or the body & mind given to him/her? Western narrative of stress management has its roots in survival issues followed by commandments, discipline and achievements which is further mixed up with Darwin, Marx, Freud and compassion of Christ and all this led not only to stress situations related to world wars but also to industrial, business and technological revolutions. As per their Sanskrit view point whole stress is emerging because of intellectual, emotional and karmic conflicts along with misuse of language by the so-called civilized men of 21st century. So, this webinar is an attempt to develop an alternative concept and practices to develop stress management based on Indian Knowledge Tradition. In the open house discussion, questions were raised and observations were made by Prof. Avinash Srivastav, Dr Vinay Singhal, Dr Chanchal Sharma, Dr Santosh, Dr. Loveleen etc. Lastly Dr Rajesh Phor, Convener of today’s webinar, Department of Physical Education proposed the vote of thanks.

**चिन्तायाश्च चिन्तायाश्च बिन्दुमात्रं विशिष्यते ।
विना दहति निज्जीवं चिन्ता दहति जीवन्म् ॥**
In Sanskrit, there is only one difference in the spelling of the words stress. The pyre burns a dead body and stress burns the living!
धृतिः और धृतिः एक शब्दों में दोहराए गए हैं, धृतिः और धृतिः हैं ।
धृतिः धृतिः निज्जीवं दहति को जलाती है, और धृतिः जीवन्म् को ही जलाती है ।

संस्कृत परम्परा में तनाव/ चिन्ता का निदान
१. सम्यक् आचार, विचार और व्यवहार
२. स्थितप्रज्ञता
३. पुरुषार्थ (धर्म, अर्थ, काम, मोक्ष)

स्थितप्रज्ञ (शान्ति + सम्यक् ज्ञान, कर्म, भाव) = कल्याण/ श्रेयस्/ wellbeing

No- 9901727204), Professor of Respiratory Medicine, Researcher, & Writer, Manipal, Karnataka was the resource person.** He talked about various issues like religious, political, administrative etc and gave factual accounts related to Kashmiri Hindu Genocide eruditely. Department of Sanskrit initiated the discussion by the raising issues the following manner- Genocide of Kashmiri Hindus including Sikhs forces us to ask- how Hindus are being treated & will be treated in future under secular constitutional India. Also, we need to assess the harm caused by malicious narratives designed and developed by agenda-based media and not only this, but also how politicians, Hindu hating leftists and bigots were treated in past and will treat Hindus in future. Kashmir is the burning example of this situation. There are horrifying stories which have been brushed under the secular carpet. We and upcoming future generations need to know these stories to understand where they will stand in the near future. Hindus can't behave like Jews and reclaim their Kashmir homeland under a secular constitution. So at least we all need to learn and keep them alive in our memories, the stories of atrocities committed on Hindus if we don't want more partition of constitutional India in near future. We need to keep alive the actual horrifying accounts of murder, rape, loot of kafirs of valley in a democratic India so that we all think about a way forward. In the open house discussion, following issues were raised by the participants- If India is a free nation and flourishes in democracy and human rights then what led to the violation of the human rights of a Hindu minority in a Muslim majority state? Have the fruits of democracy not reached the grass root level? Is J&K a Muslim sphere of influence where the writ of the Indian state is not implemented? Or is there some tacit understanding to accommodate the Muslim sub nationalism at the cost of the territorial integrity and sovereignty of the nation that swears in the public life by the principles of secularism? Why the Muslims in the rest of India have not spoken openly against the jihadi society of Kashmir that holds the nation to ransom? Muslims in India enjoy equal rights with their other compatriots all over the nation despite calling themselves as minority but why are the same rights of minority rights not applicable to the Hindus of Kashmir and other parts of the state including the Dogra Hindus of Jammu? Prof. Avinash Kumar Shrivastava, Dr. Vinay Singhal, Dr. Chanchal Sharma, Dr. Anubha Jain, Dr. Roopika Sharma, Sh. Sunil Raina & many others shared their views. The webinar concluded by the vote of thanks proposed by the convener Professor Lalit Kumar Angiras of history Department.
