## RESEARCH AND DEVELOPMENT POLICY

RKSD College is committed to encourage the teachers in promotion of research and generation of knowledge for the benefit of the students and the society at large. The college regards research as an important and essential part of its academic activities. Keeping this in mind the College research policy is based on the following simple steps:

- Provide information and news bulletins on research projects and research funding of national and international agencies.
- Sensitize Departments and faculty on potential research and development areas.
- Organizes workshops, conferences, and seminars to provide conducive climate for research and development.
- Encourage publication of books, monographs, research papers etc., by providing financial assistance and infrastructural research ambience.
- Encourage faculty and students to take up minor and/or major research project.
- Motivate faculty and students to publish and to present research papers /articles at various national and international conferences and seminars.
