

RKSD COLLEGE, KAITHAL

(‘A’ Grade NAAC Accredited)

Affiliated to Kurukshetra University Kurukshetra

Brief report of the facilities and initiatives

1. College has installed Solar Power Plants of around 200 KW capacities on roof tops of different buildings within the campus. These Solar Photovoltaic Cell helps in power generation and are connected to net metering and wheeling to the grid thus saving on the electricity bill and helping in environment conservation.
2. The Management is conscious regarding Energy Efficiency and has initiated several measures to reduce the energy consumption which include use of LED bulbs/tubes and installation of panels for efficient management of electricity load etc. Students and employees are being advised to put off the lights and fans when there is no class in the class room. Judicious use of ACs is being ensured. Service of ACs are being got done on regular basis and energy efficient electric appliances are installed in the campus. College has day light enabled building/class rooms which are so designed that less and less lights are required during the day time. Old fans and A/Cs are being replaced by energy efficient ones in a phased manner.
3. College is having in place facilities for waste management and have installed Compost Manure unit for preparing manure out of dry leaves and food waste. Separate dustbins for wet and dry garbage are installed in the campus. Old batteries are being disposed off while replacing the same with new ones. Hazardous chemicals are being kept in strict vigil and supervision.
4. College is following water conservation policy through Bore well/Open well recharge and rain water harvesting measures through recharge pits provided for the purpose. Sprinkler irrigation system is used for watering of lawns and plants. System is also in place to recharge the ground water with excess water accumulated on the main road in front of the college during the rainy season.
5. College is having its lush green campus. Green campus initiatives are being followed through various measures like adoption and maintenance of lawns by societies, landscaping and planting of trees in various plantations derives/Van Mahotsav with the help of Forest Department and various social organizations/ Associations like Alumni Association, CA's

Scw

Association, Management and staff. Plants with medicinal properties are also planted in the campus in number and Herbal Garden is also maintained. Campus is having 1124 trees of around 90 species which include ornamental as well as shady trees.

6. College has provided disabled friendly and barrier free environment. For this purpose ramps with rails for easy access to class rooms is being provided in every building and restricted entry of automobiles is being allowed in the campus. Ramp is also provided to reach the first floor of the main building of the college. A Divyangjan special wash room has been constructed as per specifications. Wheelchair is also available for needy Divyangjan .
